

# 2022 VISTA AWARDS

Recognizing teamwork and communication  
in developing innovative health care spaces

[ASHE.ORG/AWARDS/VISTA](https://www.ashe.org/awards/vista)

## What is the Vista Award program?

Every year, the Vista Awards aim to highlight professionals who are at the forefront of health care design and construction innovation. The American Society for Health Care Engineering (ASHE) of the American Hospital Association (AHA) firmly believes in recognizing teams who work together to develop and maintain safe, quality health care environments; demonstrate effective and efficient communication; and rely on data-based decision-making processes.

### The Vista Awards are given in three different categories:

#### NEW CONSTRUCTION

This award is presented to a team that has constructed a new facility essentially from the ground up. The new facility may be connected to an existing facility, but must have its own identity and be a new space.

#### RENOVATION

This award is presented to a team that has altered existing conditions or added new space to existing structures. The original building must remain envelope essentially intact.

#### INFRASTRUCTURE

This award is presented to a team that has modified or replaced major portions of a facility's utility generation, distribution, or control systems. This type of project involves significant project planning.

## Why Vista? Award benefits include:

- One complimentary registration for the 2022 International Summit & Exhibition on Health Facility Planning Design and Construction™ (PDC Summit).
- A special overall team project award to be presented at the PDC Summit in 2022.
- Complimentary exposure at the 2022 PDC Summit.
- Feature in ASHE's *Health Facilities Management* magazine and [hfm magazine.com](http://hfm magazine.com)

# CONGRATULATIONS TO THE 2021 VISTA AWARD WINNER

## New Parkland Hospital

## Parkland Health & Hospital System

**Location:** Dallas, TX  
**Square Feet:** 2.1 million  
**Number of Beds:** 862  
**Actual Cost:** \$1.27 billion; construction \$660 million

### TEAM MEMBERS:

- **Lonny Roy, PhD**, Director, Health Systems Research, Owner, Parkland Health & Hospital System
- **Hank Adams**, Senior VP/ Global Director of Healthcare, Design Manager for HDR+Corgan Joint Venture, HDR
- **Matt Mooney**, Principal, Project Principal for HDR + Corgan JV, Corgan
- **David Graham, Sr.** Vice President, Construction Manager/General Contractor, BARA (Joint Venture of Balfour Beatty, Austin Commercial, HJ Russell, and Azteca Enterprises)
- **Sanjay Agrawal, PE, SE**, President, Structural Engineer, AG&E Structural Engenuity
- **Adam Nemati, PE**, Principal, Electrical Engineer (Power), MEP Consulting Engineers, Inc.

**“By our actions, we will define the standards of excellence for public academic health systems.”**

-PARKLAND HOSPITAL MISSION

**R**arely do massive healthcare projects with multiple partners come in on schedule and \$30 million under budget, but that’s exactly what was accomplished for Parkland Health & Hospital System (PHHS) for its replacement hospital in Dallas. As a public safety net hospital, Parkland serves a unique low-resource population with substantial healthcare needs.

The hospital is situated between the historic Harry Hines Boulevard, which is the main vehicular artery for the Southwest Medical District, and the blue line of Dallas Area Rapid Transit (DART) system’s light rail service. Serving as the centerpiece for the advancement of public health in Dallas County, today Parkland Hospital serves over 1.5 million patients and employs over 10,000 people. It was funded through three avenues: a \$747 million bond approved by voters in November 2008; \$350 million from current and future operations; and \$150 million from private donations.

This new “Hospital in the Park” was designed and constructed as one of the largest patient- and safety-focused hospitals in the country. The LEED Gold-certified hospital promotes enhanced services where collaboration is emphasized, and Lean design strategies ensure operational efficiency. The design was envisioned at several levels: to create a new city center to live, work, and heal (with mass transit at the center) and as a hospital that embraces its park land heritage by putting the “park back in Parkland.”

The project team had an enormous responsibility to create a sound plan for the design and construction of this new healthcare campus to meet the needs of the community. That’s why it adopted a smart, methodical approach to the planning and construction, while also ensuring that the team serve as good stewards of resources, operating efficiently and staying within budget.

It's time for your team to be recognized for their hard work.  
Visit [ashe.org/awards/vista](https://ashe.org/awards/vista) and submit your application today!

**Please review the Vista Award Application Guidelines on [ashe.org/awards/vista](https://ashe.org/awards/vista) before submitting your application.**

## REQUIREMENTS FOR ELIGIBILITY

Eligible applicants include design professionals and other individuals working with the design and construction of hospitals, ambulatory care facilities, long-term care facilities, and medical buildings.

- Projects must have been completed between January 1, 2015 and December 31, 2020.
- Projects must have a minimum of six months post-occupancy or post-completion data.
- Only one project can be submitted per category from any single health care facility, although an organization may submit more than one project from different facilities in its system or alliance.

### The following will deem an entry ineligible:

- Failure to adhere to the instructions as noted in the Vista Award Application Guidelines posted to [ashe.org/awards/vista](https://ashe.org/awards/vista)
- Lack of team representation or support from the health care facility.
- Use of water marks or other distracting graphic elements
- Commercial endorsements
- Testimonials
- Incomplete application/submission

## IMPORTANT INFORMATION

### Vista Award Application Guidelines

The Vista Award Application Guidelines cover the details and materials needed for application submittals. Please visit [ashe.org/awards/vista](https://ashe.org/awards/vista) to download these important guidelines.

### Dates/Deadlines

All entries must be received by August 31, 2021

### Entry Fee

The Vista Award entry fee is \$425 per submission and is nonrefundable.

### Judging Panel

The panel, which reviews all entries and select winners, will include representatives from the health care planning, design and construction professions. All judging decisions are final.

### Notification

Organizations and representatives selected to receive an award will be notified in writing by January 14, 2022.

**Questions?** Contact Charmaine Osborne at [cosborne@aha.org](mailto:cosborne@aha.org).

## About ASHE

ASHE is a professional membership group of the AHA. More than 12,500 members count ASHE as a trusted source for professional development, advocacy, and representation on key issues that may affect their work in the physical health care environment. Visit [ashe.org](https://ashe.org) to learn more.

## DISCLAIMER

ASHE reserves the right to change any part of these rules at any time without prior notification. Submissions become property of ASHE and will not be returned. By submitting an entry, all individuals, organizations, and companies named in the application agree to release their names, their likenesses, and all of the submitted materials for publication at any time by ASHE and/or the AHA. ASHE cannot be held responsible for lost, misdirected, damaged, or incomplete submissions.
